

# Instructions for Completing the Waste-to-Energy Service Charge Report

Please fill in every blank. If you have no activity in a category, please complete it by entering a zero (0).

Write the month and the year for which the information is being reported. This should be the month and year you billed/invoiced your customer. The Fee remittance should be figured for a complete calendar month.

## County Collection and Disposal Service Information.

1. Enter the number of mixed municipal solid waste (MSW) customers that your business provided service to in Dodge County during the reporting month.
2. Enter the amount that was billed to MSW customers for Municipal Solid Waste services during the reporting month. This amount should not include Waste-to-Energy Service Charges, non-MSW charges, sales tax or any other tax or fee.
3. To calculate the Charges, multiply the amounts by 22% to get the amount of the Waste-to-Energy Service Charge for each. Starting with billing for May of 2017 – this rate will increase to 22%. If you didn't bill the Service Charge and you should have, you are still responsible for paying the service charge.
4. Use line 2 for Service Charge received directly from a city from a city contract, billed amount for bag sales, etc. Include a description on the line.

TOTALS: Add the column totals from lines 1 and 2. The total MSW Billings should equal all Municipal Solid Waste Services billed to your customers, supportable by your billing file and invoices. Twenty percent (22%) of this amount is the amount due to Dodge County. The rate is increasing to 22% starting with May 2017 billings. Remittance is due by the last day of the month following billing. (Example: March billing due by April 30).

Please sign and date the form. The form should be signed by the individual responsible for remitting the Service Charges to the County. Remit payment along with the report to Dodge County Environmental Services, 721 Main St N, Dept 391 Mantorville, MN 55955. Payments received after the due date may be subject to a late payment penalty in the amount of one-half of one percent (0.5%) per month, or the maximum interest rate allowed by law. The late payment fee shall be calculated from the date the Service Charge should have been billed.
