EXPLANATION

NOTE: This application form to be used for installation of service connections or extensions of existing underground utilities including crossing of county highways or for placing temporary abstractions on the Right-of-Way.

PERTINENT REGULATIONS

Safety

1. Flags, flares and barricades shall be erected to protect traffic and person. (Spec.1707)
2. Traffic to be allowed to pass and to be protected at all times. (Spec. 1707 & 1708)
(A) If it is not possible to allow traffic to pass a suitable detour must be provided.
3. Barricades to be erected in a manner which will provide suitable visibility in all directions.
4. If blasting is necessary precautions must be exercised. (Spec. 1711)
5. If work to be done lies within a municipality or platted town, permission must be obtained from such village, town, or city.
6. Excavations must be cribbed when necessary, depending upon type of soil, in order to prevent cave-ins.
7. Underground construction must be so constructed as not to harm or unnecessarily destroy the root growth of sightly or ornamental trees.

PERTINENT REGULATIONS

Roadway

1. Installation of pipe under concrete or bituminous pavements to be done by jacking or boring.
2. When trenching across surfaced roads, material excavated must be piled separately.
3. All backfilling must be placed in 6" layers and thoroughly tamped and material must be flush with the road surface when finally completed.
4. If pavement or roadway is damaged same shall be restored to original condition.
5. Concrete pavement to be replaced according to State specifications.
6. If settlement occurs or excavation caves in so that replaced materials settle (bituminous mat or concrete base) same shall be restored to its original condition.
7. No pole anchors, anchors, braces or other construction to be put on roadway shoulder, except by permit authorization.
8. No driving on to highway from ditch or driving on shoulders where damage will occur.
9. When an installation is made by jacking or boring a pipe or casing of larger dimension must be used to encase the service pipe.

LIMITATIONS

1. No lugs shall be used on equipment traversing road.
2. Roadside should be cleaned up after work is completed. (Spec. 1407)
3. If Dodge County shall make any improvements or change on all or any part of its R/W upon, over, under or along the C.S.A.H., C.A.R., or County Municipal Street then and in every case the applicant herein named shall after notice from the County Engineer, proceed to alter, change, vacate or removed from Highway R/W said works necessary to conform with said changes without cost whatsoever to Dodge County.
4. If drains are installed they must be of sufficient size in order that overflow and damage to property will not occur.
5. No work shall be done which will created a nuisance.
6. After work on a project is completed said persons doing such work must notify the County Engineer that such work has been completed and ready for final inspection and acceptance by the County Engineer.
