## **H1N1 Flu Vaccination**

Dodge County Public Health will be holding weekly H1N1 flu vaccination clinics by appointment only every Thursday from 3:00-4:00pm through April. H1N1 vaccinations will also be offered at the Dodge County Expo on Saturday March 27<sup>th</sup>.

Vaccine is FREE and available to everyone.

Right now, it may seem like the H1n1 flu outbreak is over. But the H1N1 flu bug is still out there, and flu is unpredictable. We could still see another round of disease this spring. Even if that doesn't happen, H1N1 will probably be around for a long time. The best defense against H1N1 is vaccination.

Get vaccinated now!

Please call Dodge County Public Health to make an appointment at **635-6150**
